Individual Professional Development Plan: In accordance with ORC 3319.22 and the Department of Education, each educator who desires to fulfill license requirements or an educator who chooses to renew a certificate using an IPDP is responsible for the design of an Individual Professional Development Plan (IPDP) through MCOECN Kiosk subject to approval of the LPDC. The plan shall be based on the needs of the educator, the students, the school, and the district. It is imperative that an IPDP be submitted through MCOECN Kiosk upon receipt of one's new certificate/license and it appears on MCEON Kiosk or new employment in the District. If an IPDP is not submitted through MCOECN Kiosk by the first scheduled LPDC meeting of the school year, no professional development will be valid until after the approval date of the IPDP. The effective date of an educator's new IPDP will be established as follows: For new hires, the date of employment. For renewed licenses submitted and approved by the first scheduled LPDC meeting of the school year, the issue date of the license; otherwise, the date approved. When transitioning from a four-year to a five-year license, the effective date will be the issue date of the new license.

Completion of the IPDP: Educators will complete an IPDP on MCOECN Kiosk. If the IPDP is reviewed by the LPDC and approved, the educator may work toward completion of identified goals throughout the life of the IPDP. The educator must submit all professional growth activities through MCOECN Kiosk. It is the educator's responsibility to maintain copies of all professional development activities. No activities will be considered valid that are not submitted through MCOECN Kiosk. Previously approved IPDPs of educators new to the district and all professional development activities approved by his or her previous LPDC will be honored by the GCCC LPDC. If from out of state, the LPDC will accept any professional development earned within the effective range of the educator's current license that is approved by the educator's previous supervisor and submitted in writing.

#### F. Appeals Process

If the IPDP is rejected by the LPDC, the educator will be sent an explanation with suggestions for corrections through an MCOECN Kiosk email.

Level I

1. Any certificated/licensed staff member requesting to appeal the decision of the LPDC may petition the LPDC in writing for review within seven (7) days after the LPDC's decision. The staff member may resubmit a written proposal with the appeal, which shall be considered by the LPDC.

2. The LPDC shall render its decision in writing the next regularly scheduled meeting of the LPDC after the receipt of the appeal.

#### Level II

1. Any certificated/licensed staff member requesting to appeal the decision of the Level I appeal may petition for review of the Level I decision by filing a written appeal with the chairperson of the LPDC within seven (7) days after receipt of the Level I decision.

2. An appeals committee will be appointed. The appeals committee shall consist of three (3) members. These members shall be one (1) teacher from the LPDC, one (1) administrator from the LPDC, and a Greene County Career Center teacher or administrator chosen by the staff member who, if possible, is certificated/licensed in the same area as the staff member.

#### H. Records and Files

All records, files, and meeting minutes shall be kept on MCOECN Kiosk, in the Board Office, or accessible from the LPDC webpage.

## Reflection and Revision

**GOAL:** The LPDC will establish a method to seek input from all certified employees in the district in an effort to evaluate and revise its Plan of Operation. This method will be applied on an annual basis and all certified employees will be made aware of any revisions.

### METHODS:

1. A survey will be made available to all certified employees before the April meeting. The survey will seek an evaluation and comments in the following areas:

- Effectiveness of the work.
- Effectiveness of the procedures.
- Effectiveness of the criteria.

2. The results of the survey will be tallied and discussed at the May meeting of the LPDC. Then these results will be used as the basis of revision of the current Plan of Operation.

3. A copy of the revised Plan of Operation will be dated, made available to all certified employees and become effective on July 1.

4. Revisions that alter the requirements for approved IPDPs and/or approved course/activity proposals shall not negatively affect any individual who has already begun pursuit of a certificate or license.

## Criteria for Coursework and Equivalent Activities

The GCCC LPDC uses MCOECN Kiosk system to manage the creation of IPDPs, the approval of activities and documentation, and tracking of Continuing Education Units (CEUs) earned toward licensure renewal.

## Transition to a License or Renewing a License

When making the transition four-year to a five-year license or renewing a five-year license, educators must have completed an Individual Professional Development Plan (IPDP) through MCOECN Kiosk, have had the plan approved by the Local Professional Development Committee (LPDC), and meet the professional development requirements listed below:

Six semester hours of college course work, or 18 CEUs, with one semester hour equaling three CEUs.

Requirements **will not** be reduced by the number of years of work experience. Course work must be completed at a recognized college or university approved by the Ohio Board of Regents. If course work credit is earned through an out-of-state or online college or University, said coursework must be approved by either the Ohio Board of Regents or the equivalent accreditation board of that state.

Equivalent Activities (EAs) may be counted toward the transition or renewal requirements if approved by the LPDC and converted to CEUs.

**Note:** Only the course work, CEUs and/or EAs earned after an approved IPDP may be counted toward the licensure (transition) requirements. All course work, CEUs and/or EAs **must** align with the educators approved IPDP goals and area(s) of certification/licensure.

## What the GCCC LPDC will approve if included in an IPDP

### **Course Work:**

Course work completed at a college or university approved by the Ohio Board of Regents. If coursework credit is earned through an out of state or online college or university, this coursework must be approved by either the Ohio Board of Regents or the equivalent accreditation board of that state.

### **Contact Hours:**

Workshop/seminar contact hours **must** align with the goals stated in your IPDP and must have written verification of contact time – including times and dates. If the provider is new or unusual, check with an LPDC member for approval before beginning the workshop/seminar.

### **Equivalent Activities:**

Individually planned activities related to teaching area or job performance. Contact time will be converted to CEUs: one CEU=10 contact hours. **It is recommended that all Equivalent Activities be preapproved through the MCOECN Kiosk process discussed with the educator's LPDC liaison prior to beginning.**

**Note:** Only the course work, CEUs and/or EAs earned after an approved IPDP's effective date may be counted toward the licensure (transition) requirements. All course work, CEUs and/or EAs **must** align with the educator's approved IPDP goals and area(s) of certification/licensure. . **All activities must be submitted for approval through MCOECN Kiosk as soon as possible after completion of the activity to allow for timely reflection. Make sure that in the "comment" box you include some relevant reflection on the activity. All activities must be submitted to the LPDC for approval through MCOECN Kiosk by the last scheduled meeting of the school year in which the activity occurred. Activities that occur after the last scheduled LPDC meeting can be submitted for approval in the next school year.**

### **Questions?**

Your school district and your Local Professional Development Committee are sincere in its efforts to establish high standards for the professional development of educators within the district. Those standards speak not only to the quality of the professional development, but to how responsive the development is to the needs of the educator, the district and building, and to the needs of students. Your input on how your school district and your LPDC can improve the professional development opportunities and process within the school district is important. Please submit written questions to your LPDC. These questions will be addressed at the next regularly scheduled meeting.

## Continuing Education Units (CEUs)

**The sole authority for issuing CEUs to educators in Ohio rests with the employing district LPDC**, or in a collaborative LPDC, which has authority to review and approve the professional development plans of educators in participating districts.

### Professional Development Equivalent Activities (EAs)

1. Among the most exciting features of our licensure standards is the opportunity for an educator to be innovative and creative in designing professional development that is personal and intimate to his/her professional assignment, classroom, building, district, and students.
2. In the past, the Ohio Department of Education had approved Continuing Education Units (CEUs ) for formalized, structured "workshop" type activities that may or may not have been responsible to the educator's needs. Beginning on July 1, 1999 educators became able to seek CEU "credit" opportunities in a variety of ways, **generally categorized in these guidelines as "Workshop" or "EA - Equivalent Activities."**
3. The following is a non-inclusive list of activities which are considered legitimate learning experiences by the GCCC LPDC. Educators within cooperating school districts may choose one of these **Pre-approved Activities** without the pre-approval of their LPDC and know that the LPDC will sanction the efforts. Educators must, however, document their efforts in the approved format through MCOECN Kiosk and follow other guidelines as identified herein.
4. All educators are encouraged to be creative and innovative beyond this list and to anticipate that the end result of the activity should be a product that enhances the educator's skills and knowledge, improves the school district, and ultimately helps students to achieve. Please remember that **other activities** need to be discussed with **your LPDC** so that any questions about their legitimacy to your plan can be answered.
5. The LPDC, through provisions of Senate Bill 230, is now the **only authority to grant CEU credit** to educators through activities such as those published here or as otherwise approved by the LPDC. The actual amount of CEUs will be verified by the educator in concert with the LPDC.
6. When applicable, the educator is responsible for his/her Professional Development Plan and for selecting and pursuing activities which assist him/her in reaching the goals identified in the plan. Documenting time commitment, keeping records, and producing a "product" that can be reviewed by the district LPDC is a **permanent responsibility of each educator**.
7. Educators should be aware that the district LPDC might identify a maximum number of CEUs that can be attached to any single activity during a certificate or license renewal period. The intent of the district LPDC is to insure that the educator is maximizing the learning opportunities available to him or her by engaging in a diversity of educational activities.
8. District LPDCs may choose to restrict the maximum CEUs in any category of activities. Recommended maximum CEUs granted during renewal cycles are identified following each of the activities in the **Continuing Education Unit Options** table.
9. If an educator chooses to pursue an activity which does not appear on the approved list in order to seek CEUs, he or she must gain the pre-approval of the district LPDC through MCOECN Kiosk prior to initiating the activity. The district LPDC will determine what, if any, maximum CEUs shall apply for the

activity during the renewal cycle.
