RECORDS RELEASE CONSENT FORM TO COLLEGES/UNIVERSITIES FOR SCHOLARSHIPS AND COLLEGE CREDIT

College credit and scholarships are available to high school students who attend Greene County Career Center through College Tech Prep programs while in high school. This is to inform you of your student's opportunities to prepare them for college while developing skills needed for their career technical program area. Students can get a jump start on their education, which can lead to a college degree and/or a postsecondary certification and employment in a high skill, high tech career, while also paving the way to obtain a college scholarship.

Clark State and Sinclair Community Colleges ask that students in our career-technical programs fill-out their on-line application through our district staff. Please note that this doesn't lock you into going to these colleges. Registering gives you access to proficiency assessment(s) for college credit or articulated college credit(s) and/or possible scholarships if you qualify. Each career center program is different and you should check with your instructor for specific details about the college articulations for your program. By giving Greene County Career Center consent below on this form it will allow our staff to help students register.

Please note that students who change their career technical program during high school or who withdraw may lose their opportunity for college credit and/or scholarship possibilities. Consent on this form is not a requirement to be in the Greene County Career Center college tech prep career-technical program, but would limit post-secondary benefits.

_____

Please check-mark one of the following and then sign below:

_____We give our consent for the student to enter necessary information including social security numbers to those colleges and/or universities aligned with my career-technical program.

_____We **do not give** our consent for the student to enter necessary information to be shared with those colleges and/or universities aligned with the career-technical program. We understand by not giving consent that our daughter/son **will not have access** to proficiency assessments for college credit or articulated college credit and/or tech prep scholarships.

_____We will do the online application at home. Please send us the log-in information needed.
